School District of Eleva-Strum

W23597 US Highway 10, Strum, Wisconsin 54770

## Starting or Growing Your Student Run Business Workshop

March 12th, 2026 8:00 am to 3:00 pm

Would you like to learn how to create a student run business in your school district?

Join the team at Cardinal Manufacturing, including instructors, students, industry partners and school administrators for a full-day workshop designed to help you start or grow a successful student-run business in your school.

Each year, educators and industry leaders reach out to Cardinal Manufacturing to learn how to replicate our nationally recognized program. This hands-on workshop will give you the tools, insights, and inspiration to bring a similar model to your district.

Since its founding in 2008, Cardinal Manufacturing has had great success teaching students not only technical skills but also soft skills that employers look for and that are on demand. Cardinal Manufacturing has empowered students with real-world technical, professional, and employability skills ultimately achieving our goal of “Filling the Skills Gap One Student at a Time.”

Ready to take the next step?
